YellowSonar™ - what about your AI-readiness?

Discover shared content

Scan SharePoint, OneDrive, Teams & M365 Groups to find files, folders, sites and links sharing beyond their intended audience.

Classify Exposure

Resolve full permission graph and classify every item by access level: private, restricted, companywide or public.

Improve A.I. Readiness

Turn findings into severity-ranked actions and track your Copilot readiness score as issues are reviewed, restricted or removed.

EXEMPLIS ICE™ - Belgian secure collaboration environment

Private, Dedicated Cloud

Host your critical applications and data on a secure, dedicated Belgian private cloud with high availability, ISO27001 and full control.

HyperConverged Clusters

Run critical workloads on our hyperconverged Scale HC3 clusters, combining compute, storage and high availability in one resilient platform.

Sovereign BDR storage

Protect critical data with Cubixion's Belgian S3 storage for secure, independent backups and reliable disaster recovery.

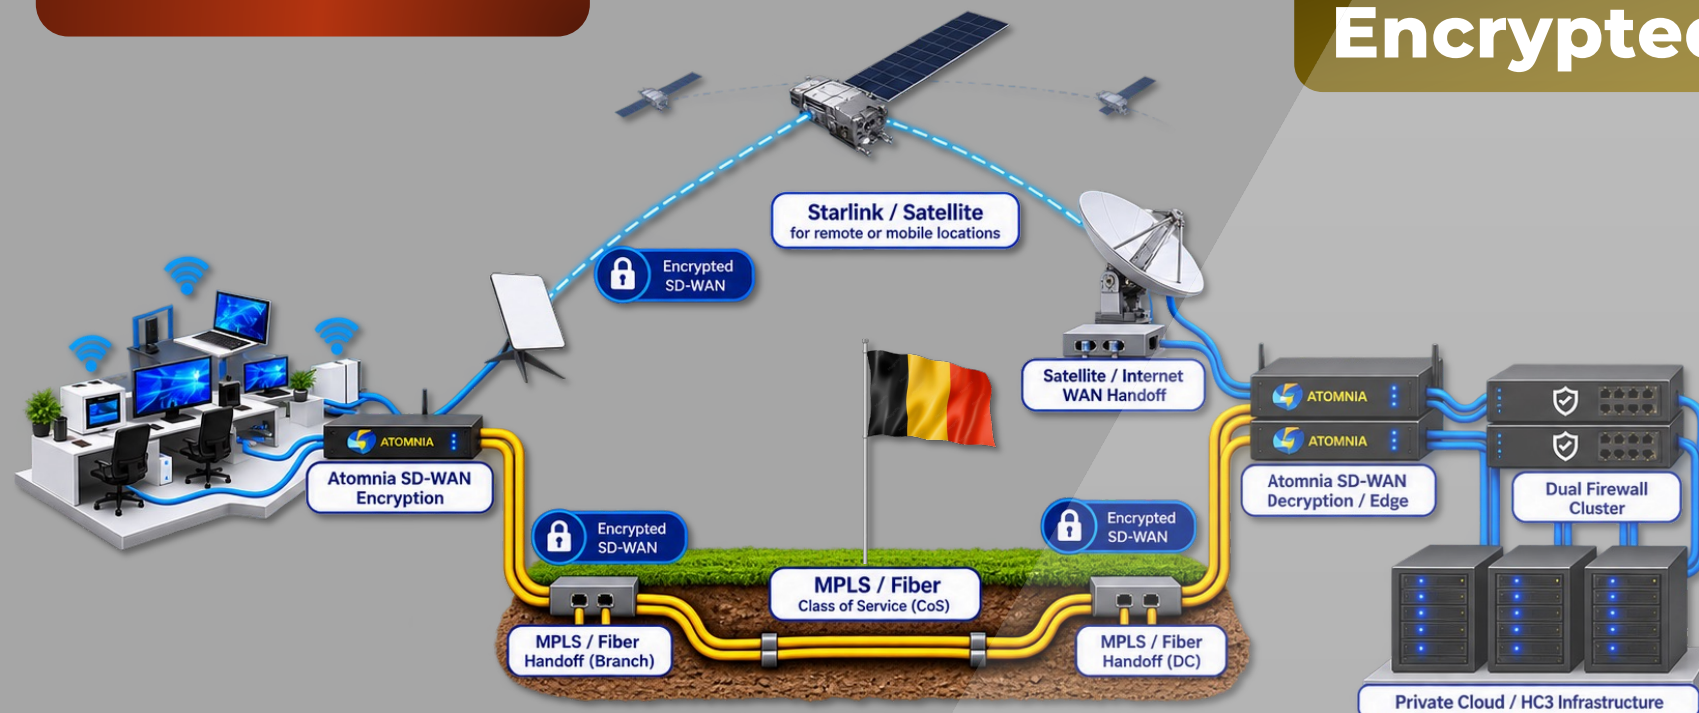

2 SECURE

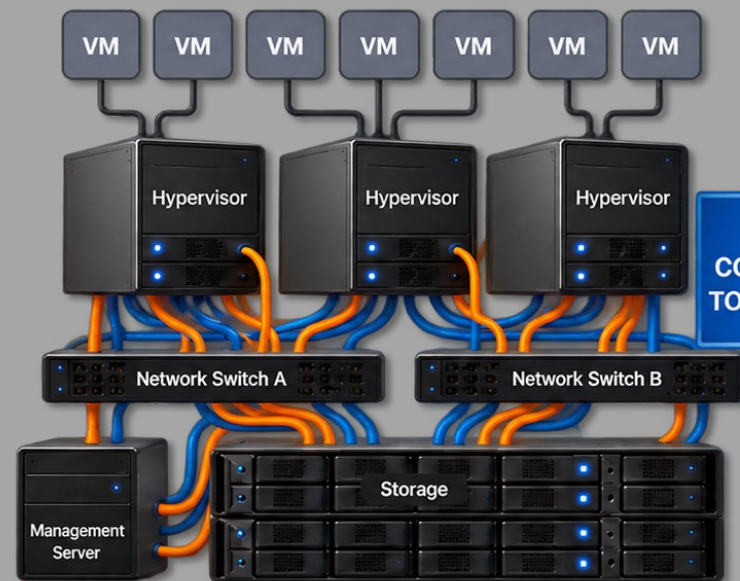

MPLS / Fiber / 5G / Starlink™

Connectivity

*L4 Military-grade
Encrypted

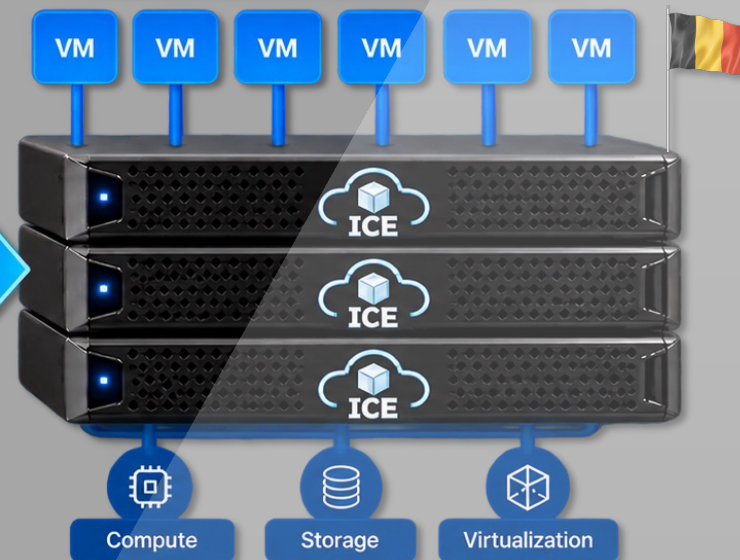

Virtualization The Old Way

- Multiple components
- Complex management
- Higher failure risk
- More time & cost
- Specialized expertise

FROM
COMPLEXITY
TO SIMPLICITY

Virtualization The **HC3** Way

- Built-in Browser Based Management
- Non-Disruptive Software Updates
- Thin Storage Provisioning
- VM Level Snapshots
- Instant Thin VM Clones
- Continuous Replication

Backup & Disaster Recovery on **Belgian S3 Blockchain**

AWS S3 Hot Storage Compatible

Your existing backup solutions can connect easily, while your data remains immediately accessible when you need it.

Easy Sovereign Migration

Just move from AWS storage to Cubixion® in a couple of clicks and your backup data remains in Belgium.

Ransomware & Failure Protection

Features such as object locking, flexible redundancy and multiple storage locations add protection against ransomware and infrastructure failures.

3 PROTECT

Easy migration. Simple to use.

Move files and folders from OneDrive, Teams or SharePoint to Nomadesk at your own pace, alongside your existing systems.

Secure digital vaults

Organise, store and securely share your files in Belgium-hosted Digital Vaults with encryption, granular permissions and full control.

Euro-Office in-the-box

Create, edit and collaborate on Word, PowerPoint and Excel-compatible documents directly in Nomadesk, without leaving your sovereign environment.

3. Evaluation of Tenders

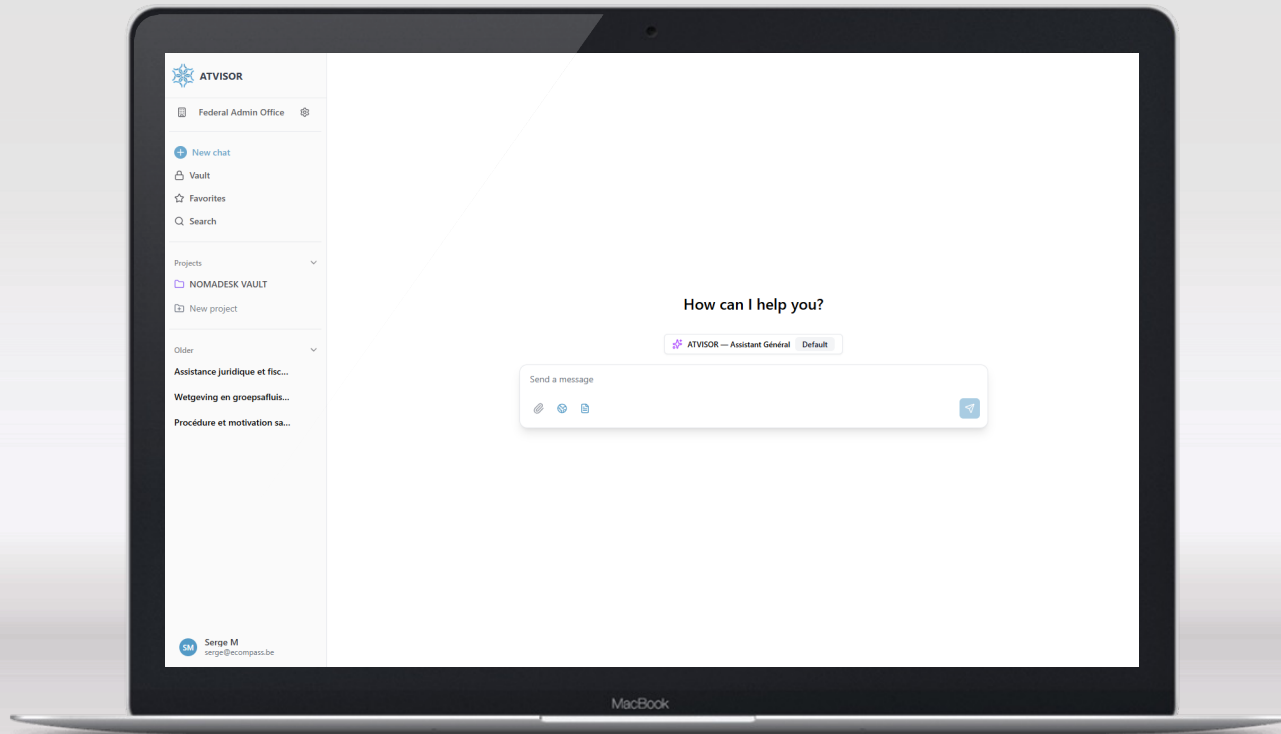

Five contractors submitted complete bids before the closing date of 14 August 2026. Each submission was assessed by the evaluation panel against the award criteria set out in Section 2, applying the following weightings:

- **Technical merit and methodology** — 40%
- **Price** — 30%
- **Delivery schedule and phasing** — 15%
- **Sustainability and local employment** — 10% Marc Devries
- **References and past performance** — 5%

The panel met on 21 August 2026 to agree the final scoring. Weighted scores for the four shortlisted contractors are set out in the chart below Annelies Goossens

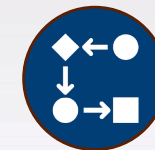

Weighted score by contractor (out of 10)

Contractor	Technical	Price	Delivery
Contractor 1	8.5	6.2	7.0
Contractor 2	7.2	9.0	6.5
Contractor 3	9.2	5.5	8.4
Contractor 4	6.8	7.8	8.1

Your documents, powered by AI

Analyse internal documents and access specialised AI assistants trained on Belgian context and regulations.

Smarter workflows

Automate repetitive tasks, generate documents and accelerate decision-making while keeping humans in control.
